

QUICK REFERENCE GUIDE

In the event that you have an emergency warranty need (including plumbing, electrical, or HVAC) outside of our warranty business hours, these contacts will be able to assist you with repairs. You will still need to submit a Warranty Repair Request Form to our corporate office so that we can ensure all repairs are completed and can be noted. We work very closely with our trades and trust they will provide the same level of service that Anglia Homes provides to our homeowners. *Denotes 24-hour emergency answering service.
